SUBJECT INDEX

A

Actinomycosis, diagnosis by biopsy, 553
and nocardiosis, 374

Adrenocortical dysfunction in etiology of rheumatoid arthritis, 613

Agglutination phenomena, serologic, in etiology of rheumatoid arthritis, 622
reaction in other rheumatic diseases, 653
in rheumatoid arthritis, 644

Alcoholism as medical problem, 271 (B. Rev.)

Amebic dysentery; bibliography of internal medicine, 235

American Rheumatism Association, report of proposed diagnostic criteria for rheumatoid arthritis, 630

Analeptic (Ritalin), ataraxic (reserpine), and placebo, effects in senile states, 220

Announcements:
chronic fungus infection symposium, 173
rheumatoid arthritis symposium, 370, 504, 505
Seventh International Cancer Congress, 274
University of Pennsylvania School of Nursing, 608

Antigens in immunologic tests in fungus infections, 580

Arthritics, physically handicapped, "back to work" program for, 770

Arthritis, rheumatoid, agglutination reaction in, 644
conservative therapy in, 697
diagnostic criteria for, study by American Rheumatism Association, 630
etiology of current concepts, 612
gold compounds in treatment of, 723
phenylbutazone in treatment of, 734
physical therapy in, 706
prevalence of, estimate of, 636
rehabilitation of patients with, 712, 770
relationship to periarteritis nodosa and systemic lupus erythematosus, 688
symposium, 609-778
synthetic antirheumatic steroids and prednisone therapy in, 751
treatment of, 723, 734, 751
vascular lesions in, 668

Artificial kidney in treatment of glomerulonephritis, 138

Aspergillosis, 533
diagnosis by biopsy, 560

Ataraxic (reserpine), analeptic (Ritalin), and placebo, effects in senile states, 220

Atherosclerosis, epidemiology of, among clothing workers of different ethnic origins in New York City, I, II, 300, 329
manifest, serum lipid levels, blood pressure, overweight, and other variables, associations between, 329

"Athlete's foot," 518

B

"Back to work" program for physically handicapped arthritics, 770

Bibliography of internal medicine; amebic dysentery, 235
gonorrhea and gonococcal infection, 592

Biologic false positive reactors, chronic, in study of natural history of systemic lupus erythematosus, 282

Biopsy, diagnosis of fungus diseases by, 552
renal, in Bright's disease, significance and potential value of, 67

Blastomycosis, European, 445
North American, 404
diagnosis by biopsy, 555
South American, diagnosis by biopsy, 556

Blood pressure, manifest atherosclerosis, serum lipid levels, overweight, and other variables, associations between, 329
studies in pancreatitis, 261

Bone structure and metabolism, Ciba Foundation symposium on, 271 (B. Rev.)

Books received, 274

Bright's disease, significance and potential value of renal biopsy in, 67

Busse-Buschke's disease, 445

C

Cancer, observations on Krebiozen in management of, 273 (B. Rev.)

Candida, species most frequently isolated from man, methods and criteria for their indentification, 460

Candidiasis, diagnosis by biopsy, 560

Carcinoma, primary, of liver, 205

Chromoblastomycosis, 538
diagnosis by biopsy, 563

Chronic fungus infections, symposium, 371-591
introduction, 371

Chronically ill and aging, classification of disability in, 342

Classification of disability in chronically ill and aging, 342

Clothing workers of different ethnic origins in New York City, epidemiology of atherosclerosis among, I, II, 300, 329

Coccidioidomycosis, 430
diagnosis by biopsy, 556
serologic reations in, 571

Colitis, ulcerative, natural history of, 347

Conservative therapy in rheumatoid arthritis, 697

Cryptococcosis, 445
diagnosis by biopsy, 559

Cultural methods for human pathogenic fungi, 545

D

Dermatology, 605 (B. Rev.)

Dermatomycoses, diagnosis by biopsy, 564

Dermatophytids, 521

Dermatophytosis, 518

Desert fever (coccidioidomycosis), 430

Diabetes mellitus, 606 (B. Rev.)

Diagnosis, differential, of acute and chronic glomerulonephritis, 45
of fungus diseases by biopsy, 552
of systemic lupus erythematosus, 275

Diagnostic criteria, proposed, for rheumatoid arthritis; report of study by American Rheumatism Association, 630

Differential diagnosis of acute and chronic glomerulonephritis, 45

Disability in chronically ill and aging, classification of, 342

Dysentery, amebic; bibliography of internal medicine, 235

E

Electrolytes in glomerulonephritis, 91

Electrophoresis, paper, Ciba Foundation symposium on, 270 (B. Rev.)

Epidemic histoplasmosis, 489

Epidemiology of atherosclerosis among clothing workers of different ethnic origins in New York City, I, II, 300, 329

Erythrasma, 524

Etiology of rheumatoid arthritis, current concept, 612

F

Fungi, pathogenic, human cultural methods for, 545

Fungus diseases, diagnosis by biopsy, 552
miscellaneous, 528
therapy of, 270 (B. Rev.)
infections, chronic, symposium on, 371-591
introduction, 371
of hair and nails, 506
skin tests and serologic methods in, evaluation of, 580

G

Geotrichosis, 531

Glomerular nephritis and lipid nephrosis, identities and mechanisms, 14

Glomerulonephritis, acute and chronic, differential diagnosis of, 45
therapy of, 122
artificial kidney in treatment of, 138
human immune reactions in, 34
microbiologic aspects of, 28
natural history of, 3
physiologic aspects of, 87
production of, by immunologic methods, 153
symposium, 1-172
introductory statement, 1

Gold compounds in treatment of rheumatoid arthritis, 723

Gonococcal infection and gonorrhea; bibliography of internal medicine, 592

Gonorrhea and gonococcal infection; bibliography of internal medicine, 592

H

Hair and nails, fungus infections of, 506

Handicapped arthritics, physically, "back to work" program for, 770

Hemagglutination in rheumatoid arthritis, 645, 651

Hemodynamics, cardiovascular, in glomerulonephritis, 100
renal, in glomerulonephritis, 89

Histoplasmosis, 473
diagnosis by biopsy, 557
epidemic, 489

History, natural, of glomerulonephritis, 3
of systemic lupus erythematosus, approach through chronic biologic false positive reactors, 282
of ulcerative colitis, 347

Human kidney, transplantation of, 149

Hypersensitivity in etiology of rheumatoid arthritis, 618

Hypertension, differences in distribution in Negroes and whites, 186
physiologic factors in, 174

VOL. 5 1957

I

"Ids," 521

Immune reactions in human glomerulonephritis, 34

Immunologic methods, production of glomerulonephritis by, 153

Infections, fungus, chronic, symposium on, 371-591
of skin, superficial mycotic, diagnosis and therapy, 518

Inhibition factor in rheumatoid arthritis, 650, 663

Internal medicine, bibliography of; amebic dysentery, 235
gonorrhea and gonococcal infection, 592

Introduction to symposium on chronic fungus infections, 371

Introductory statement to symposium on rheumatoid arthritis, 609

J

"Jockey itch," 522

K

Kidney, artificial, in treatment of glomerulonephritis, 138
human, transplantation of, 149

Krebiozen in cancer management, observations on, 273 (B. Rev.)

L

Latex particle fixation test in rheumatoid arthritis, 650

L. E. cell test, 275

Lipid nephrosis, glomerular nephritis and, identities and mechanisms, 14

Liver, diseases of, 272 (B. Rev.)
primary carcinoma of, 205

Lupus erythematosus, systemic, diagnosis by L.E. cell test, 275
natural history of, approach through chronic biologic false positive reactors, 282
and periarteritis nodosa, relationship of rheumatoid arthritis to, 688
pulmonic manifestations of, 290

M

Maduromycosis, 538
diagnosis by biopsy, 562

Metabolism and bone structure, Ciba Foundation symposium on, 271 (B. Rev.)
disordered, due to hepatic dysfunction, in etiology of rheumatoid arthritis, 616

Microbiologic aspects of glomerulonephritis, 28

Microsporosis, 508

Mucormycosis, 535
diagnosis by biopsy, 560

Mycotic infections of skin, superficial, diagnosis and therapy, 518

N

Nails and hair, fungus infections of, 506

Natural history of glomerulonephritis, 3
of systemic lupus erythematosus, approach through chronic biologic false positive reactors, 282
of ulcerative colitis, 347

Negroes and whites, differences in distribution of hypertension in, 186

Nephritis, glomerular, and lipid nephrosis, identities and mechanisms, 14

Nephrosis, lipid, and glomerular nephritis, identities and mechanisms, 14

Nephrotic syndrome, 108

Nocardiosis and actinomycosis, 374
diagnosis by biopsy, 553

North American blastomycosis, 404
diagnosis by biopsy, 555

O

Osteoarthritis, relation of symptoms to, 197

Otitis externa, 526

Otomycosis, 526
diagnosis by biopsy, 565

Overweight, manifest atherosclerosis, serum lipid levels, blood pressure, and other variables, associations between, 329

P

Pancreas, physiology of, 254

Pancreatitis, chronic relapsing, 253 (B. Rev.)

Pathogenic fungi, human, cultural methods for, 545

Penicilliosis, 535
diagnosis by biopsy, 561

Periarteritis nodosa and systemic lupus erythematosus, relationship of rheumatoid arthritis to, 688

Phenylbutazone in treatment of rheumatoid arthritis, 734

Physical therapy in rheumatoid arthritis, 706

Physically handicapped arthritics, "back to work" program for, 770

Physiologic aspects of glomerulonephritis, 87

Piedra, 507
